Dear colleagues

This course will give a detailed insight into the latest developments of mass spectrometry. The newest techniques will be presented by specialists who have a long time experience in food analysis and also in mass spectrometry. The duration of the course will be a whole day with a detailed description of the respective mass spectrometer. In addition, a focus will be on the relevance of these techniques for food analysis.

The Austrian Food Chemists welcome you to this food analysis course.

Michael Murkovic, Chairman of the working group

Registration

The registration for this advanced course will be by email to food_ms_2020@tugraz.at. Please include a short notice of motivation to attend this course. This should include the pre-knowledge and previous experience in mass spectrometry.

Venue:
ILV Kärnten (Institut für Lebensmitteluntersuchung, Veterinärmedizin und Umwelt des Landes Kärnten)
Kirchengasse 43, 9020 Klagenfurt, Austria

Accommodation in Seeparkhotel or other hotels (e.g.):
https://www.allyouneedhotels.at/
http://www.plattenwirt.at/
https://www.hiyou.at/

The registration fee includes coffee breaks and lunch.
